50. We borrowed this **b**..... from the school library.

## F. Reading Comprehension

Read the text and answer the questions that follow.

### Sloths

(1) Let's look at the world of sloths – the slow and happy-looking animals of the rainforest. Sloths are interesting animals. There's so much to learn about them! How do they live? What do they do?

(2) Firstly, let's talk about their size. Sloths are not big like elephants or lions; they're more like a furry friend you can hold in your arms. They're about the size of a medium-sized dog. An adult sloth can weigh between 3 and 8.5 kilos.

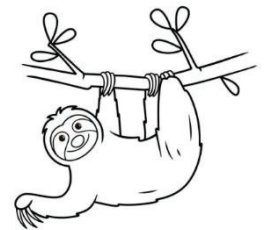

(3) Where do sloths live? They live in the trees of rainforests. Now, here's a strange fact about sloths that might surprise you: They only come down from their tree homes once a week to do their bathroom business. Yep, that's right! That is a long time to wait, but that is what they do!

(4) What do sloths eat? They eat leaves! The leaves they eat from the trees in the rainforest give them all they need to stay healthy. In fact, the reasons sloths move so slowly is because there is not a lot of energy in their diet (food). They don't need it because they move very slowly.

(5) Sloths move so slowly that they make a snail look fast! They spend most of their time hanging upside down in trees, enjoying the view and taking long naps. Imagine having a treehouse that's also your bed – that's the sloth life!

(6) Sloths have their own language. They talk to one another using squeaks and whistles. They use these sounds to find a sloth friend or tell others that the tree they are in is their home.

(7) Sloths move slowly and might seem lazy, but they are excellent swimmers. If they need to get from one tree to another, they can swim through the water to get there in no time. These slow animals are very good swimmers!

Questions (10x9 points)

51. According to paragraph 1, sloths:
- are slow and boring.
  - live in the rainforest.
  - have a lot to learn.
  - live in many different places.
52. It is possible to find an adult sloth that can weigh: (paragraph 2)
- 2 kilograms.
  - 5 kilograms.
  - 9 kilograms.
  - 85 kilograms.
53. In the first sentence of paragraph 2, **their** refers to:
- sloths.
  - size.
  - elephants and lions.
  - a medium-sized dog.
54. How often do sloths go to the toilet? (paragraph 3)
- twice a week
  - every day
  - once a week
  - The text does not say.
55. According to paragraph 4, sloths:
- like to eat trees.
  - are not healthy.
  - have energy.
  - only eat leaves.
56. Sloths must move slowly because: (paragraph 4)
- they live in trees.
  - their diet is low energy.
  - they cannot swim.
  - leaves have energy.
57. Sloths hang upside down in trees: (paragraph 5)
- always.
  - rarely.
  - never.
  - often.
58. Sloths talk to one another with: (paragraph 6)
- their arms.
  - words.
  - noises.
  - songs.

59. What is surprising about sloths according to the last paragraph?
- They cannot swim very quickly.
  - They need to get from one tree to another.
  - They are very good swimmers.
  - They move slowly and might seem lazy.
60. According to the text, sloths:
- swim faster than they move in trees.
  - move in trees faster than they swim.
  - are faster than snails.
  - can get quickly down their tree.

### Extra Questions

61. Write the correct number according to paragraph 2.

The smallest adult sloth would weigh (a) ..... kilograms.

- Use ONE word only to fill in each blank according to paragraph 6.

The two sounds in the sloth language are (b) ..... and (c) .....

- Use ONE word only to fill in the blank according to paragraph 7.

Sloths can move quickly when (d) .....
